

Midge's Stitches
Binding Pricing
January 2020

Pricing is per linear inch. Example: your quilt is 70 inches wide and 90 inches long. Add the lengths and widths of all four sides to get your total linear inches. $70 + 70 + 90 + 90 = 320$ linear inches. Applying premade binding would be 320×0.06 which equals \$19.20

Applying pre-made binding (includes corner and finish miter)	\$0.06
Cutting, preparing and applying straight grain binding	\$0.15
Cutting, preparing and applying & hand sew straight grain binding	\$0.50
Cutting, preparing and applying bias binding	\$0.20
Cutting, preparing and applying & hand sew bias binding	\$0.55
Hand sew binding to back	\$0.35
Attaching binding to a pre-quilted quilt	\$0.20
