

Midge's Stitches  
Binding Pricing  
January 2022

Pricing is per linear inch. Example: your quilt is 70 inches wide and 90 inches long. Add the lengths and widths of all four sides to get your total linear inches.  $70 + 70 + 90 + 90 = 320$  linear inches. Applying premade binding would be  $320 \times 0.07$  which equals \$22.40

Applying pre-made binding (includes corner and finish miter)	\$0.07
Applying pre-made binding and hand sewing to back	\$0.77
Cutting, preparing and applying straight grain binding	\$0.15
Cutting, preparing and applying & hand sew straight grain binding	\$0.85
Cutting, preparing and applying bias binding	\$0.20
Cutting, preparing and applying & hand sew bias binding	\$0.90
Hand sew binding to back	\$0.70
Attaching binding to a pre-quilted quilt	\$0.80
